REFERENCE FOR JUANITA PHILLIPS

Juanita has worked as my personal nurse for 6 years at the Stafford Dental Centre Timaru. We have a staff of 3 dentists and 4 nurses.

She has an excellent, friendly, outgoing personality and has always had the ability to have good relationships with all of our staff.

During her six years she has gained a full range of clinical skills and I have found her an excellent assistant.

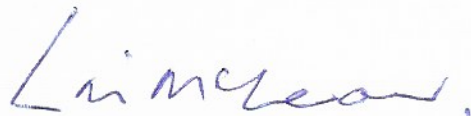

Part of her daily work has involved office work and she is fully capable of performing all necessary clerical duties.

Juanita has always had good relationships with patients and is able to converse freely with them and also has played an important role in our management of nervous patients. I am pleased to say Juanita has been a willing worker and has always been available for after hours work and weekends on call.

I am very sorry to have lost Juanita as my nurse, but can assure any future employer she would be a conscientious worker and an asset to any practice.

I wish her well on her move to Canada and for her future employment.

Yours faithfully

Lachlan McLean B.D.S
