To whom it may concern,

It is with great pleasure that I recommend Juanita Phillips-Bell. I have personally known her for ten years.

Juanita opened a private home day care at a time when my husband and I were having trouble finding reliable, quality child care for our son. I have had the opportunity of observing her with the children in her care and she not only welcomed them as part of her family, but also treated each child with dignity and respect. Her patience and calm demeanor made our son feel comfortable, safe and happy. We never had to worry about him when he was in her care.

I have never met anyone more suited to working with children. Juanita has always displayed a high degree of integrity, responsibility and compassion. Any child care facility would be lucky to have her on their team, and I am happy to give my wholehearted recommendation.

If you have any other questions, or require further information, please do not hesitate to contact me in person.

Sincerely,

Kelly Trotter
